BOAT DOCK COMMITTEE REPORT

OVERVIEW:

- Condition of boat docks is good
- Due to dry weather lake level is currently 2' below Summer Pool Elevation
- Shallow water makes access to inner slips hazardous

RECENT SLIP CHANGES:

- Kim Buchanan has a new boat in her slip. Her son, Evan Marshall has been down a lot this summer

WORK SCHEDULED BEFORE END OF YEAR:

- Replace steel cable on south side of shore bridge.
- Replace missing or broken bolts at main dock sections
- Replace rotted finger deck boards
- Prepare for winterization season

INSURANCE:

- We don't have insurance coverage for the boat docks and this is a big oversight
- Insurance coverage needs to be added before end of the year
